COP31 TÜRKİYE ANTALYA

SUBJECT: Invitation to Participate in the AI-Enabled Cleantech Initiative

On behalf of the COP31 Presidency, we extend our respects to you, and it is our honour to inform you of the following.

As we prepare for the upcoming 31st Conference of the Parties (COP31) to the UN Framework Convention on Climate Change in Antalya, our focus is on translating collective climate ambition into concrete and practical action. Through the COP31 Action Agenda, we are placing implementation at the heart of our efforts. Building on the framework of the Global Climate Action Agenda, we designed the COP31 Action Agenda as a practical implementation platform that complements formal negotiations by mobilising voluntary action, partnerships and coalitions among Parties and non-Party stakeholders to accelerate implementation and deliver tangible results across ten priority areas for climate action.

As part of this effort, the COP31 Presidency is honoured to share the attached concept note for the AI-Enabled Cleantech Initiative, aimed at accelerating the responsible deployment of AI-enabled cleantech solutions that contribute to measurable emissions reductions and inclusive innovation outcomes.

The Initiative responds to fragmentation across the climate innovation ecosystem, where promising technologies, prospective adopters and investors are often insufficiently connected, limiting the transition from demonstration to wider deployment. Through three mutually reinforcing pillars, it will support the development of flagship pilots and corporate adoption; build an innovation pipeline and mobilise investment for deployment; and advance responsible and sustainable AI, data governance and knowledge exchange. By connecting corporates, investors, climate-tech start-ups, public institutions, universities and other partners, the Initiative seeks to translate AI-enabled climate innovation into practical implementation and scalable solutions across priority sectors.

On behalf of the COP31 Presidency, we would like to invite you to participate in and support the AI-Enabled Cleantech Initiative. Your cooperation would be highly appreciated as we advance our joint efforts towards COP31 and beyond.

For further information or expression of support, please contact aicleantech@sanayi.gov.tr, aicleantech@bogaziciventures.com and ai4climate@iklim.gov.tr.

We look forward to working with you towards a successful COP31 in Antalya.

Murat Kurum
COP31 President-Designate
Minister of Environment,
Urbanisation and Climate Change
Republic of Türkiye

Mehmet Fatih Kacır
Minister of Industry and Technology
Republic of Türkiye
