

SUBJECT: Invitation to Participate in the Antalya Artificial Intelligence Pledge

On behalf of the COP31 Presidency, we extend our respects to you, and it is our honour to inform you of the following.

As we prepare for the upcoming 31st Conference of the Parties (COP31) to the UN Framework Convention on Climate Change in Antalya, our focus is on translating collective climate ambition into concrete and practical action. Through the COP31 Action Agenda, we are placing implementation at the heart of our efforts. Building on the framework of the Global Climate Action Agenda, we designed the COP31 Action Agenda as a practical implementation platform that complements formal negotiations by mobilising voluntary action, partnerships and coalitions among Parties and non-Party stakeholders to accelerate implementation and deliver tangible results across ten priority areas for climate action.

As part of this effort, the COP31 Presidency is honoured to share the attached text of the Antalya Artificial Intelligence Pledge, aimed at accelerating ambition to make artificial intelligence part of the climate solution in a manner that is sustainably powered, efficiently designed, transparently measured and available to all.

The Pledge seeks to advance voluntary action by Parties and non-Party stakeholders to build and power AI infrastructure sustainably, manage AI responsibly across its lifecycle, strengthen assessment and reporting, and enhance international cooperation and support for AI solutions for mitigation, adaptation and resilience. Its objectives are voluntary and non-prescriptive and may be pursued in accordance with respective national circumstances and capabilities or sustainability priorities.

The Pledge will be launched on 16 November 2026, during the COP31 High-level Green Digital Action Roundtable on AI to be held on Science, Industry and Technology Day.

On behalf of the COP31 Presidency, we would like to invite you to endorse the Antalya Artificial Intelligence Pledge. Your cooperation would be highly appreciated as we advance our joint efforts towards COP31 and beyond.

For further information or to express your support, please contact green@itu.int and ai4climate@iklim.gov.tr.

We look forward to working with you towards a successful COP31 in Antalya.

Murat Kurum
COP31 President-Designate
Minister of Environment,
Urbanisation and Climate Change
Republic of Türkiye

Mehmet Fatih Kacir
Minister of Industry and Technology
Republic of Türkiye
