COP31 TÜRKİYE ANTALYA

SUBJECT: Invitation to Participate in the Antalya Green Industrialisation Compact

On behalf of the COP31 Presidency, we extend our respects to you, and it is our honour to inform you of the following.

As we prepare for the upcoming 31st Conference of the Parties (COP31) to the UN Framework Convention on Climate Change in Antalya, our focus is on translating collective climate ambition into concrete and practical action. Through the COP31 Action Agenda, we are placing implementation at the heart of our efforts. Building on the framework of the Global Climate Action Agenda, we designed the COP31 Action Agenda as a practical implementation platform that complements formal negotiations by mobilising voluntary action, partnerships and coalitions among Parties and non-Party stakeholders to accelerate implementation and deliver tangible results across ten priority areas for climate action.

As part of this effort, the COP31 Presidency is honoured to share the attached text of the Antalya Green Industrialisation Compact, aimed at accelerating investment and implementation for green industrialisation as a pillar of climate action and national development. The Compact will be launched on 16 November 2026, during the COP31 Ministerial Roundtable on Green Industrialisation to be held on Science, Industry and Technology Day, which will help advance the Compact's implementation priorities.

The Compact reflects a shared recognition of the importance of advancing green industrialisation through enhanced international cooperation and collective action. Recognising different national circumstances, capacities and development priorities, it seeks to encourage investment, strengthen partnerships and support practical efforts towards near-zero and low-emissions industrial production. Building on existing international initiatives, the Compact aims to strengthen political momentum and foster competitive, resilient and inclusive green industrialisation.

On behalf of the COP31 Presidency, we would like to invite you to join the Antalya Green Industrialisation Compact. Your cooperation would be highly appreciated as we advance our joint efforts towards COP31 and beyond.

For further information or to express interest in joining the Compact, please contact greenindustrycop31@iklim.gov.tr.

We look forward to working with you towards a successful COP31 in Antalya.

Murat Kurum
COP31 President-Designate
Minister of Environment,
Urbanisation and Climate Change
Republic of Türkiye

Mehmet Fatih Kacır
Minister of Industry and Technology
Republic of Türkiye
